

## 5-Day Science Camp – Overview

### What is the Camp About?

- **A hands-on, activity-based** program combining Science, Technology, and Innovation.
- **Focused on** practical experiments, interactive workshops, and real-world applications of core scientific concepts.
- **Encourages** critical thinking, problem-solving, and creativity through **guided sessions**.
- **Features expert-led** seminars, quizzes to make learning dynamic and fun.
- **Builds collaboration and leadership skills** while nurturing scientific curiosity.

### Note :

A detailed day-wise schedule of the camp (covering activities, experiments, and themes for all 5 days) will be updated and shared on the 21st of September.
